KATA PENGANTAR

Buku “Infografi Pendidikan Tahun 2015/2016” ini merupakan salah satu bentuk pendayagunaan data pendidikan untuk memberikan gambaran mengenai capaian pembangunan pendidikan di tingkat nasional dan provinsi berdasarkan misi Kementerian Pendidikan dan Kebudayaan. Misi pembangunan pendidikan dan kebudayaan tahun 2015-2019, terdiri dari 1) Memwujudkan pelaku pendidikan dan kebudayaan yang kuat; 2) Mewujudkan akses yang meluas, merata, dan berkeadilan; 3) Mewujudkan pembelajaran yang bermutu; 4) Mewujudkan pelestarian kebudayaan dan pengembangan bahasa; 5) Mewujudkan penguatan tata kelola serta peningkatan efektivitas birokrasi dan pelibatan publik.

Dari kelima misi pembangunan pendidikan dan kebudayaan Pusat Data dan Statistik Pendidikan dan Kebudayaan (PDSPK) baru bisa menyusun indikator untuk pendidikan untuk misi ke 2 yaitu **Mewujudkan akses yang meluas, merata, dan berkeadilan** dan misi ke 3 yaitu **Mewujudkan pembelajaran yang bermutu** dengan berdasarkan ketersediaan data yang ada. Untuk mendapatkan ukuran capaian masing-masing misi, dibuat indikator komposit yang disusun dari masing-masing jenis indikator yang telah dikonversi sehingga memiliki satuan yang sama.

Sumber data yang digunakan dalam menyusun Buku ini adalah Buku Statistik Pendidikan jenjang SD, SMP, SMA, dan SMK yang terbitkan oleh Pusat Data dan Statistik Pendidikan dan Kebudayaan (PDSPK) tahun 2015/2016 dan data proyeksi penduduk usia sekolah yang diterbitkan oleh Badan Pusat Statistik.

PDSPK mengucapkan terima kasih atas bantuan berbagai pihak sehingga buku ini dapat disusun. Saran dan masukan dalam rangka penyempurnaan buku ini sangat diharapkan.

PENDAHULUAN

Dalam rangka mewujudkan cita-cita mencerdaskan kehidupan bangsa dan sejalan dengan visi pendidikan nasional, Kementerian Pendidikan dan Kebudayaan (Kemdikbud) mempunyai visi 2025 untuk menghasilkan insan Indonesia cerdas dan kompetitif. Untuk mencapai visi pendidikan 2025 maka dibagi dalam empat tema pembangunan pendidikan nasional, yaitu tema pembangunan pertama I (2005-2009) dengan fokus pada peningkatan kapasitas dari modernisasi, tema pembangunan II (2010-2014) dengan fokus pada penguatan pelayanan, tema pembangunan III (2015-2020) dengan fokus pada penguatan daya saing nasional, dan tema pembangunan IV (2021-2025) dengan fokus pada penguatan daya saing internasional.

Fokus pembangunan pendidikan dan Kebudayaan tahun 2015-2019 dituangkan dalam rencana strategi Kemdikbud yang terdiri dari 1) Memujudkan pelaku pendidikan dan kebudayaan yang kuat. 2) Mewujudkan akses yang meluas, merata, dan berkeadilan. 3) Mewujudkan pembelajaran yang bermutu. 4) Mewujudkan pelestarian kebudayaan dan pengembangan bahasa. 5) Mewujudkan penguatan tata kelola serta peningkatan efektivitas birokrasi dan pelibatan publik. Untuk mengukur capaian atau keberhasilan program pembangunan pendidikan disusun indikator pendidikan yang sesuai dengan misi pendidikan baik secara makro maupun mikro. Model indikator pendidikan yang disajikan pada merupakan agregat nasional dan provinsi. Hal ini maksud untuk dapat memenuhi kebutuhan nasional dan provinsi secara makro dan memenuhi kebutuhan perbandingan antarprovinsi. Indikator pendidikan juga merupakan salah satu dari sejumlah faktor yang sangat penting dalam upaya mendeteksi tercapainya cita-cita sistem pendidikan nasional. Indikator pendidikan ini dapat digunakan sebagai peringatan awal terhadap permasalahan pendidikan yang ada di lapangan.

Metode yang digunakan dalam kajian ini adalah studi dokumentasi dengan mempelajari dokumen yang ada untuk dilakukan analisis dengan menggunakan rumus-rumus tertentu. Data yang digunakan adalah data pendidikan tahun 2015/2016 dari semua populasi atau jenjang pendidikan pada tingkat provinsi sesuai dengan keperluan misi pendidikan. Teknik analisis data yang digunakan adalah analisis secara deskriptif dengan dilengkapi grafik untuk memudahkan interpretasi.

Untuk mengukur kinerja pembangunan masing-masing misi, dibuat indikator komposit yang merupakan gabungan nilai masing-masing indikator dalam setiap misi dengan cara: (1) mengkonversi setiap indikator supaya memiliki satuan yang sama (nilai 0-100, 0 untuk kondisi yang terburuk dan 100 untuk kondisi ideal/terbaik) dan (2) membuat rata-rata seluruh nilai indikator yang telah dikonversi).

INDIKATOR PENDIDIKAN BERDASARKAN MISI KEMENTERIAN PENDIDIKAN DAN KEBUDAYAAN

Mewujudkan Akses yang Meluas, Merata, dan Berkeadilan

No.	Jenis Indikator	Satuan	SD	SMP	SM	Dikdasmen	Penjelasan
