THE ASEAN PHOTO
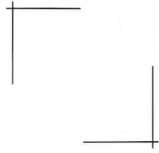

COMPETITION & EXHIBITION

Department of Culture and Tourism

S P E E C H

Minister of Culture and Tourism At Exhibition of ASEAN Photo 2001

I welcome in this occasion of exhibition ASEAN Photo 2001. This fortunate moment is noted because this event as a result of competition of ASEAN Photo would enhance Indonesia in the international forum. This event is a place for the art of photography to be appreciated by society both domestically and internationally. Various themes and objects with different cultural background reflect the richness of culture in ASEAN.

I look a lively spirit from the objects that have been displayed and a myriad of panorama, which can be developed as a potential object of tourism. For me the art of photography has its own technique to be enjoyed. A photographer not only is able to set the camera, but also is very sensitive to the object that will be recorded.

In several meeting of Arts, there was hope to put values in creating traditional art of ASEAN, which can be used and implemented in the world of tourism. Therefore, it is not exaggerated if the works of artistic photography become media of promotion in showing cultures of ASEAN. This expectation certainly is based on a competition to attract tourists from outside the region.

We suggest the winner of Photo ASEAN 2001 competition from Indonesia can improve the creativity. By this exhibition you can make a comparative study with other winners from countries of ASEAN. May this exhibition provide a field for photographer to compete and a space for society to appreciate cultures of ASEAN.

Jakarta, 5 July 2001

I Gede Ardika

S P E E C H

CHAIRMAN OF ASEAN-COCI NATIONAL INDONESIA

The ASEAN Photo Competition 2001 with theme "To ASEAN Vision: Cooperation in South-East Asian Region" is an implementation activity in accordance with the ASEAN Vision 2020. **That vision is of ASEAN as a concert of Southeast Asian nation, outward-looking, living in a peace, stability and prosperity, bonded together in partnership in dynamic development and in a community caring societies.**(Words on ASEAN Political Document - ASEAN Vision 2020)

In this age of globalisation, we believe that activities in the sphere of arts cannot separated from humanity, and therefore, adhere to the opinion that constructive ways to uphold arts and creativity also serve to enhance our human awareness.

When we contemplate the photos by artists from ASEAN, we become more responsive to our shared humanity and our vision. And that being the case, we become more ready to wish for our children and peoples what we want for ourselves which are basically living in peace and a chance to build a partnership in dynamic development.

In general, arts works are created to say where we are, and they also exist to tell who we are. The photos from ASEAN countries are presented an essential life experience of generation from a regional for sharing this experience of going through life itself. Indeed, we must rediscover ourselves by training to see of the objects existing in our environments not only with our two eyes and cameras, but also with our "hearts's eyes"

I heartily congratulate the National Committee for the ASEAN Photo Competition and Exhibition for the concerned that they applied in preparing for two momentous events that is in the realm of arts and in field of regional cooperation. They are a worthy and appropriate way to commemorate the 34th Anniversary of the Association of Southeast Asian Nations.

Jakarta, 5 July 2001

Dr. I G. N. Anom

In general, the art of photography shows a picture created by a feeling of

a photographer, but in particular, a picture made from light medium is to record

an event that has a momentum of historical aspect and esthetical aspect.

A photograph is identical with news and reporters behind news are those

who have seen a variety of events, then recording and writing it. Therefore,

it is not a secret if mastering the art of photography usually comes from reporters.

An event of incident behind news as a real picture has been transformed by the experience of reporter. In the experience of feeling not all event can be taken as an object. Usually through a number of events that touches an esthetical nuance with a relative subjective criteria, an object can be a momentum of creation. This phenomenon is believed as an ordinary event and often this event is brought to become an object and can be appreciated by audiences.

A general picture of 10 member countries of ASEAN in this exhibition globally shows various events represented by each country that consists of performances of nations in Southeast Asia, relations among ASEAN countries, protection of environment in Southeast Asia's societies, and looking ASEAN from outside the region. From point of angle and theme show the expertise and sensitivity of photographer. Despite the participants of this exhibition are the winners of each country, the quality of every picture revealed differences in terms of expertise and technical ability.

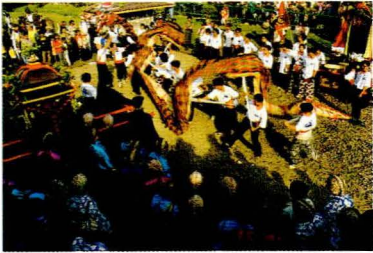

This exhibition can be a place for photographers to introduce the beauty and culture of ASEAN countries as well as to give aspiration for those who love the art of photography and the society as a whole. Through this exhibition we hope to increase cooperation among ASEAN countries and can tighten relationship among member countries.

Thanks to all who have participated in organizing this competition and exhibition of ASEAN photo, among others, PT Paperina Dwijaya, PT Modern Foto, Toraya Frame, Rediprint, Prima Color Imaging, and PoBox Graphic design.
